Orion is Pleased to announce French Certification for all eSigner Products

Plano, TX, September 15, 2014. Orion Systems is pleased to announce, that in conjunction with the Oracle/Micros Office in France, Orion eSigner software has been certified per current French government regulations for use nationwide. Orion eSigner is in use in more than fifty countries worldwide, and we are pleased to be able to add French certification as well.

Orion's full suite of paperless solutions, including eSigner and complimentary app will now be available to French customers seeking eSignature security and flexibility. The initial rollouts will be in conjunction with Micros French office, with all Accor properties across France, beginning with the popular and upscale Mercure Hotels, then rolling out across the brand.

The French certification will also make it easier and faster for Orion's existing car rental and additional hospitality companies to take their locations paperless while maintaining the high level of security demanded.

Orion is the leading provider of flexible and secure eSignature and paperless software to the hospitality industry. With thousands of hotel properties and most major car rental brands as customers, Orion eSigner runs millions of business critical esignature transactions daily. eSignatures by Orion Systems is the indicator that your esignature transaction is covered by Orion's iron-clad and patented security technology.
